EYEBROWS

Permanent eyebrows must reveal your natural beauty or hide imperfections.

Whether your brows are sparse, poorly shaped, or missing hair, we enhance or correct asymmetries using ultra-fine nano needles which can mimic the diameter and dimension of a real hair.

NANO BROWS - \$675

Are a hair by hair fine stroke.

Eye-brow hairs are visibly drawn one by one using a comb hair stroke technique. The result is soft, natural, and more realistic as the hairs follow the natural direction of growth of the real eye-brow hairs.

Our signature non-invasive Nano Brows will give you a unique and light, feathering look.

MICROSHADING - \$800

Creates a fine nano-hair strokes look with a powdered effect that resembles eye-brow powder.

PRE & POST CHEMO -

3D hair stroke eye-brows can be done one month before chemotherapy.

It will capture the appearance of your natural brows and help alleviate the anxiety prior of hair loss.

Let us bridge the gap between cancer and beauty.

* Last about 12-18 months after touch-up, depending on your skin type and lifestyle.

EYELINER

Your eyes are the focal point of your face.

Cosmetic eye-liner tattoo will help you highlight them with a beautifully applied outcome.

Permanent eye-liner will provide you a smudge-proof, skin-proof, shower-proof, gym-proof, and a knock them dead wake-up look, that will make your life easier.

SUBTLE LASH ENHANCER - \$475

Natural understated every day look with a thin eye-liner dotted in the lash-line.

EYELINER - \$500-700

A little more defined line extended to the crest of the lash-line.

THICK LIQUID-LOOK-LINER - \$675

For a cat's eye resembling a thicker liquid eye-liner. The amped up solution for drama, boldness, and style

WHIPSHADED EYELINER - \$900

Smokey eyes with option of thick and winged or latino flicks

PRE & POST CHEMO EYE ENHANCEMENT -

We stress the importance of timing and type of pigment as a key role: chemotherapy can alter the appearance of organic pigments.

* Can last between 3-5 years.

A color boost is recommended every 18 months.

LIPS

If you are looking for beautifully shaped and tinted semi-permanent lips without the effort, professional inking can help to add definition, create symmetry, and enhance the color of your lips. Melanin-rich skin, or hyperpigmentation can cause darker lips or discoloration where spots can also be camouflaged.

LIP LINER - \$675

Ideal for people who want to look polished and rejuvenated with fuller and more defined look. A natural way to enhance the shape, size, and color of your lips.

BLUSH - \$750

The result will be a beautiful finish of shading and blending with a soft natural look.

This infusing way of blushing a color of your choice will leave you with a "gloss and go" look.

COLOR CORRECTION- \$450

With time lip color become paler and shape gets thinner.

Some lips can have different color.

It can also be used as a "cheater" to enhance the cupid bow to a fuller look.

* Last anywhere from 1-3 years.

The pigment will fade naturally and lighten over time.
